K. Glazier provided the Board with a media update including an article, published by The Oklahoma Nurses Association (ONA) publication The Oklahoma Nurse, titled *Your License at Risk: An Overview of the Board of Nursing Disciplinary Process*. The contract for body fluid testing has been awarded to Affinity eHealth, Inc., and K. In response to questions of the Board, Ms. Glazier revisited agenda item 5.1 (b) (ii) on July 15, 2014, and reported to Board Members that individuals required to use the system for body fluid testing would have the ability to ascertain from within the module whether or not a supervised practice report has been submitted by their employment supervisor.

- 6.3 Review and Board decision on proposed **emergency** revisions to the *Rules of the Oklahoma Board of Nursing*
OAC Title 485. Oklahoma Board of Nursing
Chapter 10. Licensure of Practical and Registered Nurses
Subchapter 15. Requirements for Practice as an Advanced Practice Registered Nurse
485:10-15-5. [AMENDED]

K. Glazier and J. Ward presented to the Board the proposed **emergency** revisions to the *Rules of the Oklahoma Board of Nursing*.

Following a review of the memorandum of explanation and proposed emergency Rule changes to §485:10-15-5 (attachment #8), it was moved (A. Merrill) and seconded for the Board to affirm that an emergency exists and adopt the proposed emergency Rule changes to OAC §485:10-15-5, as presented.

The rationale for the affirmation of the Rules as an emergency is that the addition of the licensure reinstatement requirement option to successfully pass an Advanced Practice Registered Nurse Board-approved national certification exam consistent with the educational preparation is necessary as two of the other options to meet requirements for reinstatement or return to active status for APRN licensure are limited. There is currently no Advanced Practice Registered Nurse refresher course offered by an Oklahoma nursing education program, and limited opportunity exists for individuals to enroll in and successfully complete only six (6) academic semester credit hours of Advanced Practice Registered Nurse nursing courses in the same role and population focus as was previously held by the Advanced Practice Registered Nurse. This limitation in options to reinstate or return to active status the license of otherwise eligible individuals previously holding licensure as an Advanced Practice Registered Nurse in Oklahoma could contribute to impacts on the public's health, safety and welfare if the Rule changes were not adopted.
