5.0 Administrative/General

- 5.1 Office Update - Verbal report requiring no Board action
(a) President's Report

F. Weatherby summarized the recommendations in the Institute of Medicine report *Future of Nursing: Leading Change, Advancing Health*.

The National Council of State Boards of Nursing (NCSBN) has launched a new educational campaign that introduces consumers to the work of Boards of Nursing in the U.S. It is designed to explain that agencies function as the regulatory bodies that protect the public by licensing qualified nurses to provide care in a variety of settings and investigate/discipline whenever a nurse's behavior violates existing laws or regulations that govern the practice of nursing. The educational campaign is being showcased in a 30-second television spot that was produced in conjunction with the CBS Community Partnership Program.

- (b) Executive Director's Report

Shakayla Gordon was hired as the new Administrative Technician for daily receipting and mail.

The Dashboard (attachment #4) for review of agency quarterly statistical information was presented to the Board for review and discussion.

The relocation of the Peer Assistance Program and the Investigative Division to the new offices will begin the week of November 12th.

An update on agency progress related to the provision of online applications was presented and discussed.

Board members were apprised of Interim Studies and possible upcoming legislation which may impact the agency.

D. McKinney discussed the final appellate resolution of appeal case: Darryl Anderson v. Oklahoma Board of Nursing, Case No. 106,492, Court of Civil Appeals; CJ 2008-5550, Oklahoma County District Court affirming the Board's Order dated May 28, 2008, and addressed questions of the Board.

6.0 Regulatory Services

- 6.1 Educational presentation on registered nurse placement of nasogastric tube in patients post bariatric or anatomy altering surgery of the upper gastrointestinal tract and stomach

J. Ward presented an educational session and materials on registered nurse placement of nasogastric tube in patients post bariatric or anatomy altering surgery of the upper gastrointestinal tract and stomach. Ms. Ward also discussed survey data obtained by the National Council of State Boards of Nursing regarding whether or not other State Boards of Nursing have addressed Registered Nurse placement of nasogastric tubes in post-bariatric and anatomy-altered post-surgical patients. Representatives from Integris Baptist Medical Center, Sarah Kitchen and Susie Jones, were present to address the Board. The representatives provided background information on their request to the Nursing Education and Nursing Practice Advisory Committee. Due to the anatomical changes in the upper gastrointestinal tract, there is an increased risk of complication when an NG tube is placed. Some facilities have specific policies that prohibit nurses from placing NG tubes on these patients, but in many cases, the representatives indicated that no guidance is provided to the nurse. The Integris Baptist staff stated that they were unable to identify national standards or best practices related to this act in their literature search and are looking to the Oklahoma Board of Nursing for assistance.

Board members directed the issue to be placed as a decision item on the agenda for discussion at the January 2011 Board meeting.

- 6.2 Review and Board decision regarding annual report data provided by nursing education programs

It was moved (J. Jeter) and seconded to take from the table agenda item number 6.2, Review and Board decision regarding annual report data provided by nursing education programs (attachment #5), to accept the annual report data provided, and to request Redlands Community College, El Reno, and Central Technology Center, Drumright and Sapulpa, provide a written report to the Board addressing their progress toward survey visit recommendations.
