PRESIDENT'S MESSAGE SANDRA BAZEMORE, RN, MS

PUBLIC MEMBERS ON THE BOARD BRING A LIFETIME OF EXPERIENCE TO THEIR ROLE

The Oklahoma Board of Nursing is comprised of 11 members. Six members are Registered Nurses, three are Licensed Practical Nurses, and two are Public Members. The Oklahoma Nursing Practice Act says the public members, "should represent the public, be eligible voters of the state, knowledgeable in consumer health concerns, and shall neither be nor ever have been associated with the provision of health care, nor be enrolled in any health-related educational program." The public members are appointed by the Governor and serve during the term of the Governor who appointed them.

"On any board, the number one goal is to protect the public—and who better to do that than a public member?" says Jayne McElfresh, a private investigator from Phoenix who sits on the Arizona Board of Osteopathic Examiners in Medicine and Surgery. Public members can be a big asset when it comes to some cases. They often bring an expertise from their field that contributes to a greater understanding of evidence or of business issues. They draw upon a lifetime of ex-

perience. I'd like to take this opportunity to tell you about two public members I've had the privilege to serve with on this Board.

Bobbye Treadwell is from Lindsey where she serves on several local Boards including the Lindsay Hospital Foundation Board and is active in the State and National Organizations of Rural Electric Cooperative Women. While she has no medical expertise, she believes public members perhaps see things from the general public's point of view – maybe in some ways a more "common sense" approach to the problems or issues brought before the board. "In any field, an outsider can sometimes take a more objective approach-sometimes we are too close to the forest to see the trees." Blending this with the professional skills of the nursing members gives us "the best of both worlds striving to protect the public health". She says, "It is rewarding to know beyond a shadow of a doubt that the main objective is to protect and provide the best health care for the citizens of Oklahoma". She has high praise for the Board staff. "The Executive Director and Staff of the Oklahoma Board of Nursing are the most capable and professional people I have ever been associated with and are an asset to the State of Oklahoma. The Board Attorney, Charles Green, is of the highest integrity and does an outstanding job

(Continued on page 2)

(Continued from page 1)

President's Message

in providing the legal assistance required by this Board.” However, she reserves her highest praise for the nurses of Oklahoma. “I have the utmost respect for the Nursing Profession and do not know what our health care profession would do without nurses. Nurses should be compensated at a high level because of their dedication, service and sacrifices to the health care field. They truly are ‘angels of mercy’.”

Lee Kirk lives in Sallisaw, Oklahoma. She now, and for the past several years has served on the board of the Sequoyah County Clean Air Coalition. Prior to her retirement from the OSU Cooperative Extension Service, she was involved with grassroots and special interest boards/groups aimed at identifying community and family needs and developing alternatives to address those needs. She has served in a variety of capacities with public service organizations including volunteering in lower Manhattan with the Red Cross following the September 11th attacks and in the Peace Corp. She believes public members bring an impartial and unique perspective to Boards, the community viewpoint. Lee brings personal and professional leadership experiences that include educator, administrator, volunteer and perhaps most importantly, that of a health care consumer. She believes that just as community representatives serve on Institutional Review Boards in oversight of medical research, it is important to have public representation on the Nursing Board in order to incorporate diverse backgrounds and viewpoints as well as to ensure greater public acceptance of Board recommendations.

When asked about her observation of nursing, and in particular nursing in Oklahoma she replies, “I am in awe of the high expectations

for and consistently outstanding performance of nursing professionals in Oklahoma. Having always held nurses in high esteem, now more than ever, I believe most nurses have “a special calling” in entering the field. Nurses work so hard! And are expected to know so much! When I review long range goals and strategic plans for Oklahoma nursing, I realize that the leadership has a vision in place for a viable and visible future for the nursing profession.” She observes that 99% of our nurses in Oklahoma perform admirably, day in and day out, despite difficult work situations, nursing shortages, and the growing demands of expanding technology and diminishing health care reimbursements. Unfortunately, a small minority of nurses will appear before the board for disciplinary action. “While we all desire that these few would not make unwise decisions regarding their personal and professional actions”, she believes that nurses should guard their profession by continually being dedicated and committed. “Corrective and supportive actions to nurses in need of assistance protects both the health of the public and the esteem of the nursing profession.” Her message to Oklahoma nurses is, “You have a Board and Staff that truly cares about all nurses, irrespective of practice location or licensure level. Keep up the excellent work and positive attributes you bring to the profession”.

My message to the nurses in Oklahoma is that service to the public whether on a Board or as a volunteer enriches both the life of the volunteer and the person or community that receives the service. Nurses bring a unique perspective to community organizations in that we often see first hand the effects of poverty and abuse on our most vulnerable populations. So the next time you are asked to participate as a volunteer I hope your answer will be yes. But more than that, we need to work as a profession to see that we are represented on Boards that set policy and make decisions that affect the lives that we serve. Nurses **CAN** make a difference!

Amendments to the Oklahoma Nursing Practice Act Passed by the Oklahoma Legislature

During the 2003 session of the Oklahoma Legislature, Senate Bill 265, was introduced, at the request of the Oklahoma Board of Nursing, to amend the *Oklahoma Nursing Practice Act*. The authors for Senate Bill 265 were Senator Angela Monson and Representative Jari Adkins. The Governor signed the legislation on May 7, 2003. The full text of the bill may be review at <http://www.lsb.state.ok.us>, Test of Measures, Enrolled Senate Bills. The amendments to the act will be effective on November 1, 2003.

The major revisions to the act included:

- Adding language addressing the Board's authority to establish through rules fees, charges, and reimbursement costs in section 567.4.F Revising section 567.5.D. To reflect general fee language to reflect fees to be established through rules.
- Clarifying the criminal records search submitted to the Board with an initial licensure application is to be not more than 90 days old in sections 567.5.A.3. And 567.6.A.4.
- Removing the five-year limit for revocation of licensure in section 567.8.H.
- Removing the administrative penalty amount of \$100.00 per day in section 567.8.J.I. The maximum administrative penalty amount of \$500.00 for each count is retained.
- Adding language regarding the suspension of the license of an individual who defaults from the peer assistance program and the scheduling for a Board hearing in section 567.17. I.

Revisions to the Rules Approved

Revisions have been approved for the Oklahoma Board of Nursing *Rules*, effective July 1, 2003. The revisions are described in the following paragraphs:

Minimum standards for nursing education programs were revised to add specific clinical requirements that must be included in the nursing curriculum. The curriculum for registered and practical nursing programs must include clinical practice in care of the adult, care of the child, and maternal-infant care. In addition, the curriculum for registered nursing programs must include clinical practice in psychiatric-mental health nursing. The revisions help to ensure that Oklahoma nursing education programs continue to prepare graduates to provide safe nursing care. The revisions also promote consistency within the rules and they facilitate initial licensure and/or endorsement of registered and practical nurses between states.

The rules for licensure as a Registered Nurse or Licensed Practical Nursing were revised to ensure that applicants for Oklahoma licensure who have graduated

from out-of-state programs have completed programs conducted in the United States or the U.S. territories with curricular requirements similar to Oklahoma Nursing education programs. This helps to ensure that applicants for initial licensure have the appropriate clinical practice necessary to provide safe and effective care, no matter where the education occurs. Graduates from extended campuses of board-approved programs conducted in foreign countries will continue to be eligible for licensure as a foreign-educated nurse. Other revisions were made to update the U.S. Army classification used to designate medics who have completed the U.S. Army practical nursing course and to identify the period of time the applications fees are valid.

The length of the training program for Advanced Unlicensed Assistants was decreased from 240 hours to 200 hours because of deletion of certain respiratory care skills from the curriculum. Other revisions related to Advanced Unlicensed Assistants ensure that they meet continued qualifications for practice by in-

(Continued on page 4)

2004-2007 RN Licensure Renewal/Non-Compliance With State In

Registered Nurses are due to renew RN licensure on or before the last day of your birth month in 2004. You may renew online at <http://www.youoklahoma.com/nursing/> within 90 days of the last day of your birth month. Your on-line renewal will be processed in approximately 2 business days following the date of your on-line renewal, which may be verified by viewing the expiration date of your license on our License Verification screen available from our home page.

Licensure renewal applications will be mailed to your address on file in the Board office approximately three months prior to the expiration date of your license. Your renewal must be received in the Board office on or before the last day of your birth month. Processing of renewals received by mail will be processed in approximately 14 calendar days from receipt of your renewal in the Board office. You may submit a self-addressed, stamped envelope with your renewal, which will be date-stamped and returned to you as verification your renewal was received in the Board office. We are unable to verify via telephone call of receipt of your mailed renewal. You may check the expiration date of your license on our License Verification screen available for our home page to verify the renewal was processed. Incomplete or late renewals will not be processed and will be returned to the applicant.

Please note: In accordance with Oklahoma Statutes 68 §238.1, persons holding professional licenses in the State of Oklahoma, who are not in compliance with State income tax laws **will not** be eligible for licensure renewal. The Oklahoma Tax Commission is required to notify the licensee of the inability to verify the licensee's State income tax compliance. If the licensee fails to verify compliance with the tax laws, the Oklahoma Tax Commission will notify the licensing agency of the licensee's non compliance with the State income tax laws.

Once the Oklahoma Board of Nursing has been notified by the Oklahoma Tax Commission of a licensee's non-compliance with State income tax law, the Oklahoma Board of Nursing **will not re-new** the licensee. Also, after notification from the Oklahoma Tax Commission of a licensee's non-compliance with State income tax laws, the Oklahoma Board of Nursing must receive written notification from the Oklahoma Tax Commission of the licensee's compliance with State income tax laws prior to renewing the license. Do not submit income tax information or tax filing forms to the Oklahoma Board of Nursing.

If you have received notice of State income tax non-compliance from the Oklahoma Tax Commission or if you have questions concerning the State income tax laws, contact the Oklahoma Tax Commission's Professional Licensing Unit at 405/522-6800.

For information concerning licensure renewal, contact the Oklahoma Board of Nursing at 405/962-1800.

Licenses**

Certified School Professional Nurse Staff Task Force

Legislation enacted in the 2002 Legislative Session created the Certified School Professional Nurse Staff Task Force. The purpose of this Task Force is to identify strategies to enhance recruitment and retention of certified school nurses, identify a certified school nurse/student ratio, develop methodology for determining caseload factors which may influence the certified school nurse/student ratio, investigate possible funding sources to implement the certified school nurse/student ratio, and gather information on work completed by other entities related to the certified school nurse shortage. The Task Force, chaired by Rep. Bill Paulk, is composed of representatives from the Oklahoma Education Coalition, School Nurse Association of Oklahoma, Oklahoma Nurses Association, State Department of Education, Oklahoma Board of Nursing, Oklahoma State Department of Health, and a parent with a child in the public school system. The Task Force has discussed numerous topics includ-

ing the nursing shortage, standards for school nurses in other states, the Oklahoma Tobacco Settlement, professional development for school nurses, and provision of health care services in the schools. The Task Force continues to meet monthly. For questions concerning meeting dates and the agenda, you may contact Debbie Terlip, Research Assistant Director, Oklahoma House of Representatives, 405/521-3201.

Revisions to the Rules were signed by Governor Henry and take effect July 1, 2003. The revisions add the definition and defines the population services by the Adult and Family Psychiatric and Mental Health Nurse Practitioner. This Rule change will allow graduates of nurse practitioner programs who are academically prepared in the specialty areas of Adult and Family Psychiatric and Mental Health to be eligible for recognition for practice in these specialty areas.

Please return this form with payment to: Oklahoma Board of Nursing, 2915 N. Classen Blvd., Suite 524, OKC, OK 73106

Patient Assessment Guidelines

I. Definitions:

- A. Nursing Assessment: Nursing assessment is defined as “systematic collection of data to determine the patient’s health status and to identify any actual or potential health problems. (Analysis of data is included as part of the assessment.)” (Nettina, 2000, p.4). Components of the nursing assessment include nursing history, physical examination, review of other sources of assessment data (such as the client’s family, other members of the health care team, and the client’s record), and analysis and synthesis of data collected.
- B. Comprehensive Nursing Assessment by the R.N.: The comprehensive nursing assessment is conducted by a Registered Nurse and is an extensive data collection (initial and ongoing) for clients, families, groups and communities. This data collection addresses anticipated and emergent changes in the client’s health status, recognizes alterations from the client’s previous condition, synthesizes the biological, psychological and social aspects of the client’s condition, evaluates the impact of nursing care; and uses this broad and complete analysis to develop the nursing plan of care, which includes communication and consultation with other team members (National Council of State Boards of Nursing, 2002).
- C. Focused Assessment by the LPN: A focused assessment is conducted by a Licensed Practical Nurse and is an appraisal of the client’s status and situation at hand, which includes initial and ongoing data collection, and deciding who needs to be informed of the information and when to inform (National Council of State Boards of Nursing, 2002).

II. Oklahoma Nursing Practice Act and Assessment

- A. Scope of Practice of the Registered Nurse: The *Oklahoma Nursing Practice Act* states “Registered Nursing means the practice of the full scope of nursing which includes, but is not limited to: assessing the health status of individuals, families, and groups, [and] analyzing assessment data to determine nursing care needs...” (*Oklahoma Nursing Practice Act*, 2001).
- B. Scope of Practice of the Licensed Practical Nurse: The *Oklahoma Nursing Practice Act* states “Licensed practical nursing means the practice of nursing under the supervision or direction of a registered nurse, licensed physician or dentist. This directed scope of practice includes, but is not limited to: contributing to the assessment of the health status of individuals and groups...” (*Oklahoma Nursing Practice Act*, 2001).

Oklahoma Board of Nursing

III. The RN's Role in Nursing Assessment

The Registered Nurse (1) conducts comprehensive data collection, assesses for any anticipated changes in the condition or treatment and/or emergent change in status of the client, as an individual, family and/or community; (2) recognizes alterations in the client's condition and, compares changes to previous client condition (is the condition new, harmful, life-threatening?); and (3) analyzes and synthesizes biological, psychological and social scientific data to determine rationale for nursing care needs of the client.

IV. The LPN's Role in Nursing Assessment

The Licensed Practice Nurse contributes to assessment of the patient by conducting focused assessment of the client through collecting data, comparing the data collected to the client's previous condition, and determining when, to whom and where to report the data collected.

Report of the NCLEX Pass Rate Task Force Submitted to Board

The National Council Licensure Examination (NCLEX) Pass Rate Task Force was formed by the Oklahoma Board of Nursing in response to Goal #1 of the Board's Strategic Plan: "Statewide NCLEX pass rate for first-time writers will meet or exceed the national NCLEX pass rate by 2007". The charge to the task force was to explore issues related to the decreased statewide nursing licensure examination (NCLEX) pass rate and significant factors in determining NCLEX success, and to present recommendations to the Board by the end of FY 2003. In order to carry out its charge, the task force reviewed statistics on national, state and program NCLEX pass rates, rules and policies related to NCLEX pass rate in Oklahoma, reports on initiatives in other states related to NCLEX pass rate, reports of research conducted by NCSBN on NCLEX pass rate, and summaries of literature reviews conducted by two task force members on NCLEX pass rate. The task force also conducted a survey of state nursing education programs related

At the May, 2003, Oklahoma Board of Nursing meeting, the task force presented its final report to the Board. The task force summarized relevant findings and made recommendations to the Board, nursing education programs, candidates for the NCLEX examination, and employers. A theme among the recommendations was the accountability of the candidate, the nursing education program, and the Board in ensuring success on the NCLEX examination. For more information, the report and recommendations of the task force are available on the Board's website: www.youoklahoma.com/nursing, under the link for "Education". The Board accepted the report of the task force at the May meeting, and in the upcoming months, they will consider each recommendation individually and for those recommendations that are adopted, mechanisms for implementation.

Information on nursing education program pass rate for the past ten years is included in this newsletter and is available on the Board's website.

Refresher Courses

The staff members at the Board Office frequently receive calls from nurses inquiring about refresher courses offered in the state. Although the Oklahoma Board of Nursing does not set criteria for refresher courses or require notification about such courses, the Board staff is always willing to provide any information we have about the availability of refresher courses to interested nurses.

If you represent a school or health care facility offering a refresher course, we would appreciate it if you would provide us with information regarding the course. We will keep this information on file to share when inquiries are received.

Summary of Board Activities

During the **November 2002** meeting, the Board:

- Approved required revisions to the fiscal year 2003 budget
- Reappointed Johnny Johnson, CADC, to the Peer Assistance Committee
- Approved revisions to the following:
 - Peer Assistance Program Processing Applications Guidelines
 - Review and Challenges of National Council Licensure Examination Policy
 - NCLEX or AUA Certification Candidates with History of Arrest/Conviction Policy
- Reviewed the survey results on continued competency
- Approved the request for a self-paced practical nursing education program at Great Plains Technology Center, Frederick Campus
- Accepted the reports of Survey Visits and granted continued full approval to the University of Oklahoma nursing education programs, Oklahoma City, Lawton, Enid, Woodward and Tulsa campuses
- Removed the warning status from the practical nursing education program at DeMarge College and granted continued full approval to the program with the provision of yearly focused visits for the next three years

During the **January 2003** meeting, the Board:

- Elected new officers: President – Sandra Bazemore, RN, MS
Vice-President – Sue Mitchell, RN
Secretary/Treasurer – Cynthia Foust, RN, Ph.D.
- Conducted open public hearings for proposed rules to OAC Title 485, Chapter 10
- Adopted & submitted to the Governor and Legislature for approval changes in OAC Title 485, Chapter 10
- Approved including the removal of the five year statutory limit for revocation in SB265
- Adopted the Patient Assessment Guidelines
- Appointed/Reappointed the following individuals to the Peer Assistance Committee: Cindy Lyons, RN, MS, Patty Gail Patten, MS, LPC, LMFT, CADC, and Priscilla Turner, RN
- Approved revisions to the following:
 - Guidelines for Individuals Requesting Reinstatement After Suspension, Surrender or Revocation for Misappropriation or Misuse of Drugs/Alcohol
 - Reports Submitted from Nursing Education Programs on NCLEX Pass Rate Policy
- Approved the request for a part-time, open-entry, open-exit evening practical nursing education program at Moore Norman Technology Center, Norman
- Approved curriculum change request from the practical nursing education program Chisholm Trail Technology Center, Omega
- Approved the curriculum change request from the nursing education program at Connors State College, Warner

(Continued on page 11)

(Continued from page 10)

During the **April 2003** meeting, the Board:

- Accepted the report of Governor and Legislative approval to changes in OAC Title 485, Chapter 10
- Approved the revisions to the School Nurse Position Statement
- Reviewed the following without revisions:
 - Approval of Advanced Practice Educational Programs Policy
 - Continuance of Hearings Policy
 - Peer Assistance Program Confidentiality Policy
- Accepted the Report on Calendar Year 2002 NCLEX Pass Rate Statistics
- Approved the request for a one time offering of a full-time practice nursing program at the Atoka Campus, Kiamichi Technology Center
- Approved the request from Carl Albert State College to offer an extended campus nursing program in Sallisaw
- Accepted the reports of Survey Visits and granted continued full approval to nursing education program at Oklahoma State University, Oklahoma City and Goodwell campuses
- Approved the request from Pioneer Technology Center, Ponca City, to implement an individually-paced practical nursing education program.
- Approved the request from Northeast Technology Center, campuses in Afton, Pryor and Kansas, to implement individually-paced practical nursing education programs
- Approved the request from Meridian Technology Center, Stillwater, to convert the full-time practical nursing education program to an individually-paced program

Certified School Professional Nurse Staff Task Force

Legislation enacted in the 2002 Legislative Session created the Certified School Professional Nurse Staff Task Force. The purpose of this Task Force is to identify strategies to enhance recruitment and retention of certified school nurses, identify a certified nurse/student ratio, develop methodology for determining caseload factors which may influence the certified school nurse/student ratio, investigate possible funding sources to implement the certified school nurse/student ratio, and gather information on work completed by other entities related to the school nurse shortage. This Rule change will allow graduates of nurse practitioner programs who are academically prepared in the specialty areas of Adult and Family Psychiatric and Mental Health to be eligible for recognition for practice in these specialty areas.

Oklahoma Board of Nursing

Peer Assistance Program

A nurse who has successfully completed the program wrote the following poem.

A NEW WAY OF LIFE

I thought that being numb was the answer, To the pain I felt when Dad died of cancer.	Then came Peer Assistance. I met them with some resistance
One little toke killed the pain, Seemed to keep me from going insane.	They showed me the way. As I started AA.
Soon it was not only pot, But drugs and alcohol, I was using a lot.	I began a very special walk. I thought I would never learn to walk.
I became full of hate and anger. And soon had an even deeper hunger.	But with God by my side, I began to enjoy the ride.
I'd take just one more pill, So I didn't have to feel.	I slowly began to feel, And my life became very real.
I knew I had to quit. I had fallen into a deep dark pit.	Now I start every day, With a moment of silence then I pray,
But to no avail, I just continued to fail.	And now today, I've come here to say
I was trying to do it on my own. I began to feel very alone.	Thanks Peer Assistance, For showing me a whole new existence.

A great way to add useful content to

The Peer Assistance Program is here to assist nurses who desire recovery from chemical dependency. If you or a nurse you know is suffering with this illness, please call the Peer Assistance Program for information on how we can help. All inquires are confidential. Don't wait until it is too late.

OPEN MEETING NOTICE

All Oklahoma Board of Nursing Meetings are open to the public except those portions which may be in Executive Session. The first day of Board meeting begins at 5:30 p.m., with the second and third day beginning at 8:30 a.m. All actions of the Board are taken in open session. Nurses, members of other professional disciplines, students and the public are invited to attend. Groups who plan to attend should schedule their attendance in advance with the Board office to ensure seating is available.

There is an Open Forum on the first day of each Board meeting. Anyone wishing to address the Board about a nursing issue should contact Kim Glazier, Executive Director, requesting to be placed on the agenda for the Open Forum.

Committee meetings are also open to the public. Please call ahead of time if you plan to attend as dates, times, and location may change. The committee meetings are cancelled and rescheduled if it is determined a quorum will not be present.

Board Calendar
