

OKLAHOMA BOARD OF NURSING  
2915 North Classen Boulevard, Suite 524  
Oklahoma City, Oklahoma 73106  
(405) 962-1800

Refresher Course Policy

- I. Introduction/Purpose: In accordance with the *Rules of the Oklahoma Board of Nursing*, the Board has developed the *Refresher Course Policy* for use by nurses seeking to demonstrate evidence of continued qualifications for practice or evidence of eligibility for initial licensure or relicensure through completion of a refresher course.
- II. Definitions:
- A. “Refresher course” means a structured program approved by the Oklahoma Board of Nursing, offered by an educational institution approved to offer a nursing education program leading to licensure, for the purpose of providing an update of nursing theoretical content and clinical practice for individuals who have previously completed a Board-approved nursing education program.
- III. Policy/Guideline:
- A. In order to offer a refresher course that meets the Board’s requirements for evidence of continued qualifications for practice, the institution must be approved to offer a nursing education program leading to licensure. Approval of the refresher course by the Board is required and may be delegated to Board staff.
- B. Faculty teaching in the refresher course will hold a minimum of a baccalaureate degree in nursing. A health care facility-based preceptor model may be used to supplement faculty instruction in the clinical component.
- C. The refresher course will be a competency-based model including a didactic component and a clinical component.
1. The clinical component includes a minimum of 40 hours of clinical education experiences to validate competency-based readiness for practice.
  2. Students may proceed through the competencies at their own pace.
  3. In order for the student to successfully complete the refresher course, the student must have received a summative satisfactory evaluation on both the didactic and clinical components of the course.
- IV. The basic curriculum to be covered in the refresher course for registered nurses and practical nurses will be appropriate for the level of licensure. Areas to be covered must include, but are not limited to, the following:

Board Approved: 9/23/04

Board Reviewed w/o Revision:

Board Revised: 9/25/07; 9/28/10; 7/30/13; 11/14/17; 11/10/20
